Main.cpp

```cpp
#include <iostream>
using namespace std;
int main() {
    char grade = 'B';
    int marks = 78;
    switch (grade) {
        case 'A':
            cout << "Excellent: top performer" <
            break;
        case 'B':
            if (marks >= 75) {
                cout << "Very Good: upper B" << (
            } else {
                cout << "Good: lower B" << endl;
            }
            break;
        case 'C':
            cout << "Average: improve karein" <<
            break;
        case 'F':
            cout << "Fail: dobara koshish karein
            break;
        default:
            cout << "Invalid grade" << endl;
    }
    return 0;
}
```

Console I/O AI Agent 387 ms

```
Very Good: upper B
```
